

**Hiring Manager**  
Acuative Corporation

Dear Hiring Manager,

I am writing to express my interest in the Software Developer position at Acuative Corporation. With a strong foundation in full-stack development honed through rigorous training at Orange Coding Academy and hands-on project experience, I am confident in my ability to contribute effectively to your team. My technical skills align well with the requirements of this role, and I am particularly excited about the opportunity to work in a dynamic environment that values innovation and end-to-end network solutions.

In my recent role as a Full Stack Web Development Trainee at Orange Coding Academy, I dedicated over 900 hours to building and maintaining complex web applications. I gained hands-on experience with .NET technologies, including ASP.NET, MVC, WebForms, and SQL Server. My projects included developing secure and efficient applications like *Entakheb*, a national voting system, and *Smart Tech*, an e-commerce platform where I led as Scrum Master. Both projects showcase my ability to create user-friendly and robust applications with a focus on functionality, security, and responsive design. Additionally, I have experience working with popular front-end frameworks like Angular, Bootstrap, and JavaScript, allowing me to deliver intuitive interfaces and seamless user experiences.

My background as a civil engineer has also equipped me with a structured approach to problem-solving and project management, which I find invaluable in software development. Furthermore, I am proficient in server-side technologies, including Web APIs, T-SQL, and CLR, and have a solid grasp of Agile and Scrum methodologies, which enable me to adapt quickly and contribute effectively in a collaborative setting.

The opportunity to join Acuative Corporation is particularly appealing as I admire your commitment to providing comprehensive end-to-end solutions, from network design to cybersecurity. I am excited about the potential to work alongside industry experts in your Security Operations Center and contribute to initiatives that help clients optimize their networks and protect against cyber threats. I am committed to expanding my technical knowledge to best meet Acuative's standards for continuous innovation and client service.

Thank you for considering my application. I look forward to the opportunity to discuss how my skills and experiences align with Acuative Corporation's goals. Please feel free to contact me at **+962 781214015** or via email at **dima.alahmad02@gmail.com**.

Sincerely,  
**Dima Mohammad Ahmad**
